Become a Saint Louis AC Angel! New Air Conditioning for Church and Chapel

The air conditioning unit in the church and chapel is 43 years old and no longer efficient, with replacement parts becoming difficult to find. HVAC professionals confirm it has outlived its life expectancy. The current system only has "on" or "off" functions, making temperature regulation difficult. This causes the compressor to run constantly, leading to higher energy bills. A new system will be more efficient and significantly lower costs. To prevent a costly emergency, we are asking for your help.

If 450 families each give \$1,000, we can meet the \$450,000 goal to replace the system. Donations of any amount are greatly appreciated.

Rev. Gabriel Vigués, Pastor

¡Conviértase en un Ángel del AC de San Luis! Nuevo Aire Acondicionado para la Iglesia y la Capilla

La unidad de aire acondicionado en la iglesia y la capilla tiene 43 años y ya no es eficiente; las piezas de repuesto son cada vez más difíciles de encontrar. Los profesionales de HVAC confirman que ha superado su vida útil. El sistema actual solo tiene funciones de "encendido" o "apagado", lo que hace difícil regular la temperatura. Por lo que el compresor funcione constantemente, generando facturas de energía más altas. Un sistema nuevo será más eficiente y reducirá significativamente los costos.

Para evitar una emergencia costosa, solicitamos su ayuda.

Si 450 familias donan \$1,000 cada una, podremos alcanzar la meta de \$450,000 para reemplazar el sistema. Cualquier donación será muy apreciada.
